

Conditions for the sponsorship of external events by the German Association for Pulmonology and Respiratory Medicine e.V.

Last updated: 15 December 2016

Under certain circumstances the DGP is pleased to support events in the form of a sponsorship with the DGP logo. Such events can include:

- Scientific events (national and international congresses, symposiums, workshops)
- Training and continuing education
- Other events in the areas of professional, health, medical, and scientific policy

Criteria

The DGP supports events that meet the criteria of scientific quality, independence, and transparency:

1. One of the leaders/organizers of the event must be a member of the DGP, or a DGP workgroup, section, or commission must be named as the event (co-)organizer and actively involved in planning and conducting the program.
2. Written proof of certification by a medical association or other relevant institution must be submitted.
3. The event program (or preliminary program) must be submitted along with the application, and all points regarding these criteria answered.
4. The event organizer must state the target audience and educational objectives. The program must be defined by an independent scientific lead and/or scientific committee.
5. A statement of what interest the DGP might have in this event must be included.
6. The DGP will not sponsor events organized or financed by an individual pharmaceutical, medical technology, or diagnostics company.

Procedure for granting sponsorship

1. The application must be submitted to the German Association for Pulmonology and Respiratory Medicine e.V. at info@pneumologie.de with sufficient time before the program is printed. The event agenda (or preliminary program) must be included.
2. After the staff office reviews the application, the secretary general decides on a sponsorship. If there are any doubts, the secretary general can delegate the decision to the management board or, if the decision is urgent, the president.

There is no legal entitlement to a sponsorship, even if all criteria are met.

The staff office will inform the applicant of the decision via email.

ADDRESS

Deutsche Gesellschaft für Pneumologie
und Beatmungsmedizin e.V.
Robert-Koch-Platz 9
10115 Berlin

SPONSORSHIPS

Sponsorship contents

Seite 2 | 2

A DGP sponsorship documents its support of the contents of an event. Events sponsored by the DGP are identified as such, and included in the event calendar and event notifications sent to DGP members.

The DGP logo may be used on announcements and the program catalog only for the event approved.

In respect of data protection laws, we cannot provide any information on our members. The DGP does not normally send invitations or informational material, except in exceptional circumstances and upon appropriate payment.

Please note that by granting sponsorship, we do not provide any guarantee or accept any liability or other responsibilities for the contents of the event and any printed materials or electronic publications associated with it. In particular, by granting sponsorship, we do not accept any obligations to provide financing or compensate for deficits.
